

Overview

The BlackBerry 7100i™ from Nextel® gives our customers everything they need to increase their productivity and enrich their day! It is ideal for professionals looking for the power of a BlackBerry in the form a phone. The BlackBerry 7100i integrates all of a customer's business and personal communication needs and offers many of the features available on the BlackBerry 7520 from Nextel including Wireless Email and Instant Messaging, Personal Organizer, Digital Cellular Phone, Walkie-talkie, Speakerphone, Bluetooth technology, GPS navigation and Web access. The BlackBerry 7100i also offers Multimedia Messaging Services (MMS) and the ability to assign unique ringtones to individual callers. The BlackBerry handhelds from Nextel are the only BlackBerry devices with real-time GPS navigation.
